Top Security For All Your Applications

Make access to all your digital channels easier for your customers with a highly secure and user-friendly means of authentication and authorizing operations. Mobile Token from Wultra is a simple mobile app for iPhone and Android. Thanks to the app, you will never have to use SMS authorization or distribute hardware tokens.

The solution is also open-source, which means you can integrate it with your internet banking, banking API (PSD2), or trading system quickly and cost-effectively, without worrying about slow support or unclear licensing terms, or fear of vendor lock-in.

Great User Experience

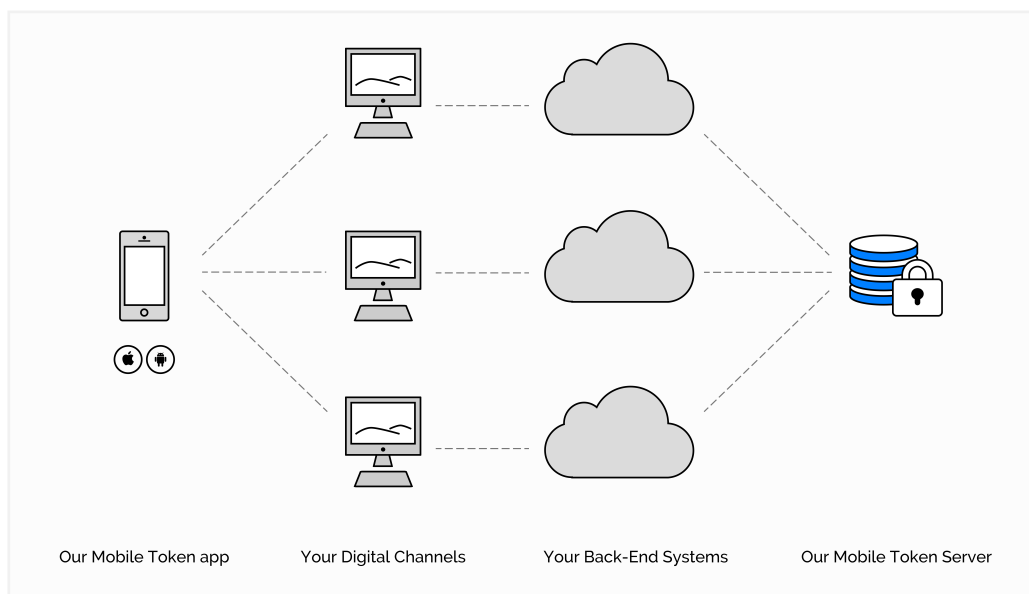

Top experts in user experience worked with top security experts to produce our mobile token. Thanks to its smart online mode, mobile push notifications, and beautiful visual design, our application is more enjoyable and faster than competitive solutions.

Key Features

- **Simple PIN or Biometry**
Your clients can sign in and make payments with an easy-to-remember numeric password (PIN) or with a fingerprint scan or face recognition.
- **Flexible Activation**
The mobile token can be easily activated and managed through various channels, such as internet banking or an ATM.
- **Support for Push Notifications**
Your users will be alerted by a push message at just the right moment so that they do not have to search for the app.
- **One Token For All Your Channels**
Your clients do not have to install a specific mobile app for each digital channel. They can use just one.
- **Document Signatures**
Signing a contract amendment with a private key signature has never been easier. Just enter the PIN, and it's done!
- **App Shielding**
Our mobile RASP solution will protect your app against mobile malware and various runtime attacks.

Solution Architecture

About Wultra

Wultra helps the leading European banks build secure and engaging digital channels faster. Our range of security-related software technologies covers the whole digital banking application stack, be it on the web or mobile platforms. Security solutions by Wultra secure the best mobile banking in the Czech Republic, an open banking gateway for the retail bank with over 300k clients, or a premium banking for the most affluent clientele.
